

The following review is based on past course offerings over the last five years. While the future cannot be predicted, courses offered in the past would suggest that certain modules could be completed, or could be close to being completed, through distance and/or evening courses. Individual Departments decide on which courses they will offer in a given year and module requirements can change as well. Both of these factors will impact the future availability of modules. This information does not include modules available through Brescia, Huron or King's University Colleges.

### EXAMINATION CENTRES

Students enrolled in Distance Studies courses may write examinations in established Examination Centres. To learn more, [www.registrar.uwo.ca/applying/distance\\_studies/examinations.html](http://www.registrar.uwo.ca/applying/distance_studies/examinations.html)

### RESIDENCY REQUIREMENT FOR PART-TIME STUDENTS

Part-time main campus students taking only one course must take it at Main Campus. Distance studies courses are considered Main Campus courses. Exceptions may be granted by special permission if the desired course is only offered at an Affiliated University College or if scheduling on Main Campus would make it impossible to select courses during the Fall/Winter session. Contact the Academic Counselling Office of your Faculty or Department to discuss the possibilities of permission. For more information about degree and module requirements, see Western's Academic Calendar ([westerncalendar.uwo.ca](http://westerncalendar.uwo.ca)).

### ADMISSION TO THE UNIVERSITY

In order to be eligible to enroll in any of the above modules or their related courses, students must first be admitted to the University. For information on admission requirements and procedures, visit: [welcome.uwo.ca](http://welcome.uwo.ca)
