**Using Swap to Waitlist a Different Tutorial or Lab for a Course That You Are Already Enrolled In:** Caution! If you use swap to waitlist a closed tutorial or laboratory section, you will be immediately dropped from the lecture section and added to the to the waitlist for both the lecture and tutorial/laboratory section.

**Important:**

- Keep track of which class you have swapped for a waitlisted course. While you can review which course you are waitlisted for on your class schedule, it will not display which class you have authorized a drop from if enrollment from waitlist was to occur.
- You cannot modify your swap selection after you have joined the waitlist. If you want to change the class you have indicated to drop then you must drop the waitlisted course and resubmit a swap request. You may lose your original position on the waitlist.
